### SUMMARY

Detail-oriented Front-end Developer with 2 years experience. I am highly adept at both independent and collaborative projects, with an emphasis on single page application development.

### SKILLS

- Knowledge of cross-browser compatibility
- Ability to implement responsive design
- Attention to details and eye for UI/UX designs
- Version control

### PROGRAMMING

HTML, CSS, SCSS, JavaScript, Bootstrap, Git, GitHub

React.JS, TailwindCSS

### EXPERIENCE

#### Frontend Developer

Tuuli | January 2023 – Present | Ghana

- Built a responsive landing page website using HTML, CSS and JavaScript
- Participated in code reviews and followed best practices for version control (Git)
- Collaborated with other team members to deliver a better user experience.

### CERTIFICATION

#### UENR Robotics Club (URC)

Certificate of participation in one week web development boot camp – February 13<sup>th</sup> - 17<sup>th</sup>, 2023

Andela, Meta

React Learning Program

Certificate of Completion – October 18<sup>th</sup>, 2023

### EDUCATION

#### BSc. Computer Science

University of Energy and Natural Resources

01/2023 – Ongoing

I am building a solid foundation in programming, software and web development through hands-on projects.

### PROJECTS

#### E-commerce Website – Destore

[GitHub](#) | <https://destore-jade.vercel.app/>

Website built with React and other modern web technologies, featuring a filterable products search, and related product recommendations.

- Improved user experience and conversion rates by implementing filtering product search feature.
- Reduced development time by using React components and state management
- Implemented Routing that provided a smooth and efficient navigation experience for users.
- Used HTML, CSS, SCSS and Reactjs

#### Therapist Finder Web App– Therapist

[GitHub](#) | <https://dori-therapist.vercel.app/>

Website built with React for people to find therapists online. Has a landing page with blog posts pages. Also has a filtering search feature, and a custom therapist page for more information about a therapist.

- Made use of state management to reduce development time.

- Implemented Routing that provided a smooth and efficient navigation experience for users.
- Used HTML, CSS, SCSS and Reactjs

#### Home Sale Company Website – SafeBuy

[GitHub](#) | <https://safebuy.vercel.app/>

- Built a multipage website for a home sales company
- Fully responsive on any screen size
- Used HTML, CSS and JavaScript
